

LEAVE THE DO-NOT-CALL AS IS! This is a great service. If an estimated 3 to 4 million out of an estimated 5.5 million are using it must be good. I am so productive now, I can vacuum the house and clean the toilet without a single telemarketer call. I have a good idea for the Bankers or anyone else that wants to change Wisconsin's do-not-call list to make it more uniform. Change the other States so that they have the same do-not-call list as we do. I (and I'm sure the other 3 to 4 million people of Wis.) want to thank everyone that had anything to do with this fine service. Keep up the good work! The only way this could be even better would be to eliminate the Political telemarketers from using it. Thank you!
